### 12TH ANNUAL BRANDYWINE TOUR!

# DELAWARE VALLEY BICYCLE CLUB

P.O. BOX 497, MEDIA, PA. 19063

### August 1988

### HELMETS

This month the D.V.B.C. newsletter is featuring "A Consumer's Guide to Bicycle Helmets," a brochure that includes what you'll need to know about buying and wearing a bicycle helmet.

Page 8

### RACING

Drew Christensen is on vacation this month, so his regular feature, "The Racing Edge" won't be gracing the back of our newsletter as usual. Drew will be back next month with more exciting racing news.

### QUOTE

Loyola's formula for manipulating men:
"Follow the other man's path to your own goal."

## **BIKER BITES DOG!**

Ha-ha, just kidding, really. But I have been vengefully looking for a story to go along with this headline for some time now. Ask any newspaper journalist and he will tell you his first lesson from the editor is that "Dog bites man!" is not a headline worth its weight in ink. But if the contrary, such as "Man bites dog," or "Taxes go down," or "No corruption found in local government" presents itself, stop the presses cold if you have to. I wanted to use this headline at least once befor I die, since either of the other two would cause too much mass hysteria.

Obviously there isn't a whole lot going on this time of the summer. One more month of serious training before it is open season on triathlons and centuries. (See Special Events section in back of this newsletter.)

If you show for the August 1st D.V.B.C. meeting, you will be treated to a special presentation by club member Bob Gallen, of Havertown. Bob recently returned from a bike tour in France where he followed on the heals of THE RACE.

"Are you sure this is an authorized repair shop?"

### **DVBC Meeting Place**

Unitarian Universalist Church of Delaware County, 145 W. Rose Tree Road (near Rt. 252 & Rose Tree Park). First Monday of each month. Doors open at 7:00 P.M. Public is welcome.

### Ride Guidelines

2. Make sure your bike is in proper working order BEFORE you arrive.

3. Carry a spare tube, patch kit, pump and water bottle.

4. Practice safety and obey all traffic laws.

Wearing a helmet is usually not mandatory, but is encouraged. (A helmet is mandatory for all time trials and some Class A rides.)

6. Do not "bike off" more than you can do. Go on rides within your ability, interest and experience.

7. RIDE CLASSIFICATIONS:

CLASS D: For new, inexperienced riders or families: speed 5 - 7 mph, frequent stops, as few hills as possible. Group will wait for all riders. Mileage usually less than 10 miles, but longer distances permissible.

CLASS C -: For average riders: 7 – 8 mph, rest stops as needed. Group will wait for stragglers. Distance recommended: 10 – 30 miles.

CLASS C+: Also average riders: 9 - 10 mph, rest stops every 45 - 60 minutes. No obligation to wait for stragglers if cue sheets or maps are provided by the ride leader.

CLASS B -: For more experienced riders: 11 - 12 mph, stops every 15 - 20 miles. No obligation to wait for stragglers if cue sheets or maps are provided.

CLASS B+: For strong riders: 13 - 15 mph, stops every 20 - 30 miles. No obligation to wait for stragglers if cue sheets or maps are provided.

CLASS A: For very strong riders: 16 - 20 mph, stops every 30 - 50 miles. No obligation to wait for stragglers if cue sheets or maps are provided.

TIME TRIAL: Timed event. Again, you must obey all traffic laws. A hard helmet is mandatory. You must yield the right of way at all times. Club time trials should not be regarded as races, but as training rides.

8. Each rider assumes his/her own risk on all time trials and touring rides.

9. Those who ride ahead of the group are on their own ride.

10. Always notify the ride leader before leaving the group.

11. Ride leaders should adhere to the advertised speed of the ride

12. Ride leaders are not expected to be bike mechanics.

JOIN

NOTE: In the case of questionable weather or road conditions, the Ride Leader may decide to cancel the event. Call the Ride Leader if in doubt. All Club rides are rated according to degree of difficulty. If you're in doubt about your cycling ability, try out a ride one class below the one you're not sure about and then work your way up. The general public is invited to all events oprganized and conducted by Delaware Valley Bicycle Club. A program is presented by the Club for bicyclists of all ages, all abilities, and all interests. Except for the Freedom Tour, Brandywine Tour and Club picnic, all club events are free to the general public. The general public is welcome!!!

# Ride Calendar

August 1 • 7:30 P.M.  DVBC Meeting	Doors open at 7:00, meeting begins at 7:30. SPECIAL TOPIC: Come and find out what surprise speaker will be featured. Meeting place is the Unitarian Church on Rose Tree Road just west of Rt. 252. NOTE: This meeting was listed incorrectly in the July newsletter for August 2.
August 7 • 9 A.M. Miles: 10-15 • Class C – Ridley Creek St. Park	Leave from the Moylan-Rose Valley train station (Woodward & Manchester Sts.). This popular ride will follow Ridley Creek to the park. A ride for everyone! Call Ira Josephs at 565-4058 for more information.
August 13 • 8:00 A.M. Miles: 80 + 80 • Class A – Today for Shore	Baltimore Pk.) for this overnight ride to the shore. We'll get a ride across the Commodore Barry Bridge from the Port Authority then head for North Wildwood. Convenient cutoff point near Belleplain State Forest for Ocean City & South. Overnight accommodations are on your own. The return ride will leave about 2:00 P.M. Sunday so we'll have daylight. Ride pace will be about 16-18 mph with a food stop at Port Elizabeth and a few brief water/snack stops as needed. Call Mike Keating (891-9098 daytime, 543-3731 evenings) with any questions.
August 14 • 9:00 A.M. Miles: 32 • Class C Beat the Heat	Leave from the Chadds Ford Elementary School (Rt. 1 near Rt. 100) for this scenic ride into Delaware. Expect some hills on this route along the Brandywine and Red Clay Creeks. Call ride leader Doug Kennedy (543-4664) for more information.
August 14 • 9:15 A.M. Miles: 5 • Class. All Goshen Time Trial	Meet at Providence Rd. just north of Goshen Rd. near the Radnor Hunt Club. This is a good regular event for anyone wishing to improve their bike handling skills. For more information call Rollin' Rich Patterson at 622-2954.
August 20 • 8:30 A.M. Miles: 22 • Class C Chateau Country	Meet behind the Sheraton Hotel on Rt. 202, next to the Concord Mall in Wilmington, DE for this combined ride with White Clay, Brandywine Bike and Valley Forge Clubs. This will be an easy-paced ride with hills with optional food stop at the end. Call Roz Chasin for more info, (302) 478-1610.
August 21 • 8:00 A.M. Miles: 25-30 • Class C – Cool Spots	Along the Brandywine. Meet behind the Wawa at Rts. 1 & 100 in Chadds Ford. Ride leader Fran Demillion will try to find the coolest spots along the Brandywine to pedal to. Optional brunch stop after the ride. For questions call Fran at 431-2675.
August 21 • 1:00 P.M. Miles: 20 • Class C Media Local	Meet at the Media Courthouse (corner of Front St. & Veteran's Sq.) for a comfortably-paced ride in and around the Media area. Enjoy some nice scenery, and a few hills, on a ride suitable for almost any casual rider. Call Frank Havnoonian (449-6154) for more details.
August 27 • 7:30 A.M. Miles: 132 • Class A – Double Metric 4 Shore	Leave from Kingsway Regional H.S. (Rts. 322 & 551 — 2nd light past Com. Barry Bridge) in N.J. Ride 66 miles to North Wildwood, then return. In Wildwood eat, rest and possibly go for a swim. Kitchen and shower facilities available. Leave about 3:30 the same afternoon for the return. Brief water/snack stops as needed. Mike Keating (891-9098 days or 543-3731 evenings). Rain date Aug. 28.
August 27 • 9:30 A.M. Miles 20-30 • Class C Richmond's Ice Cream	Meet at Kingsway Regional H.S. (Rts. 322 & 551 - 2nd light past Com. Barry Bridge) in NJ. Enjoy an easy-paced ride to the ice cream shop. The Pattersons will have their baby trailer — feel free to bring yours. Ricky, Jr. may call for a possible milk stop. If temperature is over 90° the ride will be cut to 10 miles. Rich Patterson - 622-2954.
August 28 • 10 A.M. Miles: 35 • Class C+ Hopewell Village	Start at the main parking lot of Marsh Creek State Park (Rt. 282 above Downingtown). Tour the slightly hilly area around French Creek and visit St. Peter's Village. Bring a snack. Enjoy this opportunity to ride in an area not frequently found among our rides. Call Rich Bernhard at 284-2019 for more details.
August 28 • 1:00 P.M.	Meet at the Media Courthouse (corner of Front St. & Veteran's Sq.) for a comfortably-paced ride in

and around the Media area. Enjoy some nice scenery, and a few hills, on a ride suitable for almost any

casual rider. Call Frank Havnoonian (449-6154) for more details.

### PRINCETON BICYCLING EVENT

August 6, 1988

The Princeton Free Wheelers' 8th Annual Bicycle Touring Extravaganza

Sponsored by Kopp's Cycle

Ride through the beautiful countryside around the Princeton area with cyclists from all over the eastern United Statest Choose from tours that range from an easy 15 mile ride to Hopewell to a challenging century, from flat tours to rugged hill climbs. Our complete facilities include convenient parking, telephone and rest rooms. A light anack is included. Sanction century patches will be available (\$2.00 each) for ½, ½, and full century. In addition to all this, we are continuing a one price policy of \$7.00, however, if you pre-register, you get faster check-in and a FREE event T-shirt. (All others may order an event T-shirt for \$5.00 - includes shipping)

### CHOICE OF ROUTES

There are six new routes, with cue sheets, map over-views and full road markings. All routes start from Rider College at 7 a.m. for the 100 mile tours, 8 a.m. for 50 mile tours, and 9 a.m. for the 25 mile and 15 mile tours. Make combinations that are as easy or as chal-

#### SUPPORT SERVICES

Kopp's Cycle will provide FREE, expert inspection and adjustment service at the start. A mobile on-call sag service will assist riders with mechanical difficulties throughout the day. At the end of the Event, sag wagons will "clear" each route.

No Confirmations are Sent Prior to the Event.

Fees are New-Refundable or New-Transferable.

### REGISTRATION

FEE: \$7.00 (All applications postmarked after July 7, 1988, will be considered day-of-event registrations and will NOT be eligible for a free T-shirt.)

# THE ONE MINUTE SUMMARY

- You need a helmet whether you ride a bicycle on streets or bike paths.
- Excellent helmets meet the Snell helmet standard. Good ones at least meet the ANSI standard. Look for a sticker in the helmet telling which one it meets.
- Buy white or yellow for visibility.
- We recommend the following models (within groups, by alphabet):

# EXCELLENT

Bell V1-Pro, Stratos Giro Kiwi K-25 Lazer LZ-1, Eddy Merckx MSR Nava Pro-Tec Breeze Most helmets meeting the **Snell 1984 standard**.

## G005

Avenir
Bailen
Bell Tourlite
Brancale SP-4
Cycle Products Co.
Targa
Vetta Corsa
Most helmets meeting the ANSI Z90.4 standard.

 Fit is important for safety. With the straps adjusted you should not be able to get the helmet off no matter how hard you try.

If you have six more minutes, please read inside!

# PRICES AND WHERE TO BUY

Helmets are available in bicycle shops for \$25 to \$70. A good shop offers help in fitting. Mail order from magazine ads may be less expensive if you already know what you need. Wherever you buy, helmets are cheap for the benefit you get, often costing less than a jersey or derailleur. Do not wait for a sale. Cost is no excuse to delay. Your brain is priceless!

# WHEN SHOULD YOU REPLACE A HELMET?

Based on Snell crash tests of eight-year old Bell Bikers donated by WABA members, we think that most helmets with Lexan shells are good for more than the five-year life some manufacturers recommend. Fiberglass should be even better. We have not tested ABS shells in actual use. Replace any helmet if it is crashed, damaged by solvents, or so scuffed up and grubby it is clearly time for a new one.

# CHILDREN'S HELMETS

A child's head needs protection, but a small child's neck structure may not be able to support the weight of a helmet. If there is any doubt, take child and helmet to a pediatrician for advice. Impact test results for children's helmets track closely with similar models of adult helmets of the same brand. Look for a standards sticker inside.

# THE WASHINGTON AREA BICYCLIST ASSOCIATION

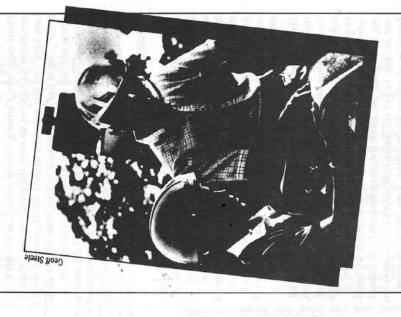

Founded in 1972, WABA is a local non-profit advocacy organization working to improve bicycling conditions in the Washington, D.C. area and to encourage the use of bicycles for transportation. WABA is a League of American Wheelmen affiliate. We test helmets and produce this pamphlet because our members need the information and no other source provides it. In December 1987, we moved to 1015 31st Street N.W., 3rd Floor, Washington, D.C. 20007, (202)944-8567. WABA dues are \$15 per year. We welcome your tax deductible donation to support our testing.

# March 1988

Reproduction of this pamphlet is encouraged!

# A CONSUMER'S GUIDE TO BICYCLE HELMETS

Compiled by the Washington Area Bicyclist Association

# THE SIX MINUTE ANALYSIS

# Need One? Yes!!

Hard experience among bicycle riders has shown that accidents do happen to even the most careful. When one happens it is essential to have head protection, since 75% of the 1,400 annual deaths from bicycle accidents are due to head injury. Road rash and broken bones do heal; scrambled brains may not. There are other benefits. Car drivers see you better and give you more respect. But the main reason to wear a helmet is to prevent brain damage in a hard impact.

# What to Look For

A bicycle helmet must absorb energy from an extreme impact to prevent brain injury. This requires a layer of stiff, non-springy foam to absorb shock by crushing, and then not bounce back at your head. Every good bicycle helmet does this with expanded polystyrene, a stiffer version of the white beer-cooler foam used to protect eggs and stereo equipment. Springy foam is added inside for comfort, but absorbs little of the crash energy.

The helmet must stay on your head even when you hit more than once -- usually a car first, and then the road. So the helmet needs a strong strap, normally made of nylon. The fastener must be equally tough. Look for Drings or a top quality buckle with a positive action which cannot be jiggled open or made unsafe by bending a retaining tab. With the strap fastened you should not be able to get the helmet off your head by any combination of pulling and twisting. Keep the strap snug when riding.

Finally, most helmets have a hard outer shell to spread impact energy if you hit a sharp object, to hold the polystyrene liner together after the first hit, and to protect the softer liner from damage by solvents or the wear and tear of daily use. New models appeared in 1987 without shells; some of them are very protective. We do not know if they will be as durable in daily use as the hard shell helmets, or how well they will hold together for a second impact in an accident. Shell-less helmets should appeal mostly to racers, who require the lightest possible equipment.

# Performance Standards - Snell or ANSI

The best bicycle helmets meet the Snell Memorial Foundation 1984 standard, giving superior protection. Helmets we rate "Excellent" should meet it. Well below that is the American National Standards Institute ANSI Z90.4 standard, met by the "Good" helmets below. WABA does not recommend any helmet which does not at least meet the ANSI standard. New helmets should have a standards sticker inside.

# Comfort Requirements

Coolness, ventilation, fit and sweat control are critical comfort needs. Air flow contacting the head determines coolness. Sweat control requires a brow pad or separate sweatband. Good fit with no chafing insures correct position on the head in an accident. Surprisingly, weight is less important. Riders easily adjust to the 16 oz. weight of most helmets.

# **Crash Testing**

The Snell Memorial Foundation, which conducts helmet research and promotes improvements in head protection, crash-tests bicycle helmets in their labs. Their tests show that the models below provide high levels of protection.

# EXCELLENT

Bell V-1 Pro Easily meets standards for this group, although we dislike the 1987 "Aero" buckle design. Cool.

**Bell Stratos** Dramatic aero shape. We do not like the buckle. Ear holes whistled.

**Giro** Styrofoam with nylon cover. Passes all tests for this group. Light. Reasonably cool. May not last as long as a hard shell helmet.

Kiwi K-25 Nicely made, but cloth inner liner makes it too warm in hot weather.

Lazer LZ-1 and Eddy Merckx Solidly made helmets, nice interiors, somewhat warm.

MSR Cool. Net suspension helps airflow. Reliable Dring buckle. Easily meets impact standards for this rating.

**NAVA** Nicely made, reasonably priced. Barely meets impact test for this rating.

Pro-Tec Breeze Best yet from Pro-Tec. Average comfort, smoked visor.

## GOOD

Avenir Bell V-1 Pro copy. Impact protection is excellent but strap strength needs upgrading.

**Bailen** No vents, but air circulates underneath for reasonable cooling. Needs a stronger strap to be Excel lent.

**Bell Tourlite** (1987 Model) Well made, but we do not like the buckle. Previous models had Excellent impact protection.

**Brancale SP-4** Comfortable helmet with average ventilation and nice interior.

Cycle Products Co. Sold at a discount in department stores. Below average comfort.

Targa Nicely made with fiberglass shell, average ventilation. Expensive.

Vetta Corsa Cool, light, but protection falls just short of Excellent.

# PROBABLY GOOD OR MAYBE EVEN EXCELLENT

Many more helmet models are now on the market for which we do not yet have Snell test results, but the manufacturers state that they meet the ANSI Z-90.4 standard. If so, they should rank in the GOOD section above. If they meet the Snell standard they might even be rated EXCELLENT. While we await test results, one of those helmets may be a reasonable choice if its features meet your needs.

# SUMMARY

When you pick up a helmet, look for a sticker inside to see what standard it meets. Put it on, adjust the straps, and try hard to pull it off. Wear it for 30 minutes to see if fit problems develop. Look at vents and sweat control. Look at the buckle for positive action. Compare the price to the cost of a hospital emergency room visit. Buy a helmet and ride home with good head protection. No rider ever regrets buying a helmet, but crash victims who needed one always regret not having had one on.

### September

### 5 Monday

### Tandems — Bikes Built for Two

### Midwest Tandem Rally, 1988 September 2-5, 1988 Springfield, IL

Is it true that Abe & Mary Lincoln were the first tandem riders in Springfield? The only way to get the real answer to that \$64,000 question is to attend MTR'88!

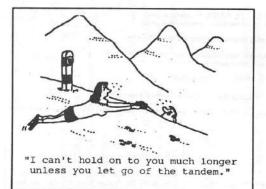

Headquarters for MTR is the Sky Harbour Inn, a Best Western hotel, conveniently located on the north side of Springfield. Sky Harbour Inn is easy to reach by car, train, plane, or tandem, but it's also close to the country where the great riding is. We have reserved a block of rooms in this modern 2-story, tandem- accessible hotel. The rooms are only \$44.00/night, for up to 4 adults per room!

MTR hosts have planned a wide variety of rides, with the right length for you. You can tour Springfield's historic sites or go to the zoo and back, all in under 25 miles total length. Sunday you can choose from rides up to a century, with a box lunch available (advance reservations only) in the restored 1830's village of New Salem. Hostess Marcey Werthwein has even scouted out every ice cream and candy store along all the rides, so you'll need to allow time for that, too!

Last year's entertainment will be tough to top (Where do those Loons get those outfits, anyway?), but John, Marcey, and David are going to give it their best shot. Start planning now how you want your bugger decorated, and how you want your entire group to be costumed. Let's see the Loons, C.A.T.S., C.O.W.s, M.U.T.T.s, and everyone else dressed up to the nines!

Of course there will be the traditional Sunday night banquet, this year off-site at the Springfield Banquet Hall, a short distance from the hotel. A cash bar will be available.

For more information and a brochure, send a 25-cent stamp and your address to MTR'88, P.O. Box 20263, Springfield, IL 62703, or call John/Marcey Werthwein at (217)-525-1230 or David Stjern at (217)-546-6474.

Midwest Tandem Rally, 1988 September 2-5, 1988 Springfield, IL

### IMPRESSIONS OF GEAR UP ' 88

The 23rd Annual Great EAstern Bicycle Rally (GEAR Up) was held in Millersville, PA, in the heart of the PA Dutch Country. The four day event started on Friday, June 3, with various rides in the afternoon and an ice cream social in the evening. The staff at Millersville University were a little overwhelmed when 2100+ hungry bicyclists swarmed their campus! Huge carts were rolled out with various kinds of ice cream, and were quickly devoured by the friendly mob. Who says bicyclists don't ride to eat?

The rides started early on Saturday morning. It was an uncommonly cool day for the riders. It was difficult to choose which ride to go on as there were 39 rides to go on just on Saturday! The length ranged from 10 to 100 miles and several rides were specifically for tandems. We chose to ride one of the tandem rides, of course. The rides were quite hilly, especially our choice of "Chocolatetown USA," the ride to Hershey. Said one cyclist, "If these hills don't get you in shape, nothing will!" The scenery was outstanding and the peace and beauty of the Amish Country had to be seen to be appreciated.

The evening meals consisted of Pennsylvania Dutch delights such as shoo fly pie, chicken corn soup, etcetera. If the meals weren't enough, there were many workshops on Saturday and Sunday on everything from "Effective Cycling" to "Advanced Tandemming."

Saturday evening was quite special and included the Terry Award to the outstanding woman cyclist. The nominees' list read like the Who's Who of women's bicycling, but Susan Notorangelo-Haldeman was named the winner from a list of excellent nominees. She wasn't there to accept her award in person, as she, Lon, and Rebecca were attending the Northwest Tandem Rally in Tacoma. Afterward, the Chapel Street Players performed two acts from Neil Simon's "California Suite." The acting was great. It was too bad they didn't do all four acts.

Monday was the last day of the rides, and we were sad to see the rally come to an end. Bicyclists had come from all over, from as far away as California and Canada to join in this unity of friendship and the joy of bicycling. GEAR Up next year will be held in Saratoga Springs, NY. We look forward with great anticipation to attending and meeting our friends again, and making new friends, on one of the finest non-tandem specific bicycle rallies on the east coast.

Scott and Amy Hoffman Lancaster, PA
